

## President's Message

by Laura B. Randall, M.S., CIH

It is truly my honor and privilege to serve the MIHS membership as President for 2010 - 2011 year. MIHS has such a full and rich history, that I bring with me a tremendous amount of admiration and respect for our organization.

As with any organization, it is only as good as its members and the board who serves it. I am very pleased to see the membership turnout at our meetings. When I scan the room, if I do not see a few people at one meeting, I know I am sure to see them next. The MIHS Board offers many meetings per year, so there is always an opportunity to attend. Our group is very devoted and tightly knit, and we are all working toward the same goal. Besides the learning and earning of CIH CM points, our meetings offer the opportunity for members to exchange ideas, brainstorm new ones, do a little benchmarking, and even have a laugh or two.

The MIHS Board is a very dedicated and hardworking Board. We are composed of a diverse arrangement of Industrial Hygienists, ranging from younger to very experienced, who bring to the table newer skills and traditional ones. We are from different areas of employment, including academia, industry, government, consulting and insurance. Some are newer to MIHS, and others have been long standing pillars of MIHS. We have an assortment of personalities and energy. All of these factors contribute to a complete and comprehensive view of industrial hygiene, and allows us to make decisions that we, as a group, feel would best serve our membership.

With that being said, I'd like to introduce our Board to you, and give a brief highlight of each person's involvement. (By no means is it a comprehensive or all-inclusive synopsis.) Many activities that the Board does are transparent to the membership, so I think it is only fitting to show how each person has given a lot of themselves to the Board and the membership, without asking for anything in return. I'll start with the Officers and then go to the Board of Directors. (Please note that only "CIH" designations will be listed.)

### OFFICERS:

**Past-President: Terry Fisk, CIH** Terry has been a long time member of MIHS, and has served two times as President! She comes to us with an insurance and health care background. She is a wonderful organizer, and has a particular talent in bringing out the best in every Board Member. She has orchestrated and facilitated many meetings and events, and she is a pleasure to work with. If you would be interested in joining the Board, please do not hesitate to contact Terry. She will be more than happy to discuss it with you. Thank you, Terry, for all of your hard work throughout the years!

**President - Elect: Peggy Brady, CIH** Peggy is a relatively newer member of MIHS. She comes to us from consulting, industry and academia. She has a tremendous amount of energy and enthusiasm. She listens well to the members' needs. (The President-Elect is the person who plans and coordinates the events for the year.) Her research on topics for the upcoming PDCs, MIHS Mini-Conference, and other MIHS event planning is unparalleled. She works tirelessly in her efforts. Not only does she have a razor sharp mind, but she is also a wonderful person, and is delightful to work with.

**Treasurer: Aaron Jacob** Aaron has been a long time Treasurer for MIHS. He comes to us from product sales and service industry. At every Board meeting, he has the most current treasury information, and always keeps on top of our investments. He keeps everything balanced in the books, and we can always rest assured that all is in good order. Not only does he do that, but he has also played integral parts in meetings to help MIHS save money, for example, he suggested bringing back vendors to the MIHS Mini-Conference. He coordinated and arranged for all of that to help offset the cost of the event. At the PDC at the MSC in April, he arranged for a lot of the extras that we needed for the event, so that we didn't need to rent them from the conference center, again saving money. Many times, he has chaired the committee for the MIHS Booth at the Michigan Safety Conference (MSC). He also

*continued...*

...President's Message continued

coordinated for obtaining give-aways (i.e. pencils, highlighters) at our outreach events, finding the most economical vendor and pricing. He is also obtained many of our speaker gifts, including coffee mugs, flash drives and pens with the MIHS logo. Aaron is very dedicated and hardworking, and a person we can all count on, not to mention a pleasure to work with.

**Secretary: Carrie Brown, CIH** I cannot say enough positive things about Carrie. She is a relatively newer member of MIHS, although she has served on the Board for several terms. She comes to us from industry. She has an amazing amount of determination. Her ability is unmatched in keeping track of every event, every member's record in the database, event registrations, broadcast emails, meeting minutes, and she fields countless other miscellaneous questions and items for MIHS membership and Board. She has also helped to set up the voting website for elections. A lot of her free time and weekends is spent sorting that out. In addition to that, she also finds time to contribute to Student Outreach Committee, when she participates in the annual Explorathon. She is technologically savvy, and is on top of it all. She was selected by MIHS to attend the AIHA Future Leaders Institute in 2006. (So watch for more great things from her!) If all of that is not enough as it is, she is a delight to work with, and has a wonderful personality! Next time you see Carrie, please be sure to thank her for all that she does. I know she will appreciate that.

#### BOARD OF DIRECTORS:

**Bill Cleary, CIH** Bill is a long time member and pillar of MIHS. He comes to us from government and consulting. He has served as MIHS President from 1966-1967, and has many times served as Secretary, Treasurer and as a Board Member. He is an AIHA Fellow, and has been awarded the MIHS Golden Impinger Award, which is the highest award of distinction and honor for MIHS. He provides a historical perspective to the Board, and has many years of Industrial Hygiene experience. He has served as the proxy for MIHS at the AIHce Local Sections Council meetings. He is involved in the MIHS Best Paper Award Review. He has worked more than his share of shifts at the MIHS Booth at the MSC, and has chaired that committee several times. He has been involved in almost all aspects of MIHS at one time or another. His talent and leadership are outstanding, valuable and irreplaceable. We are all very fortunate to have him on the Board! Despite all of his accomplishments, he is very humble, approachable, and has a great personality.

**Andy Crause, CIH** Andy is a long time member of MIHS, and has served on the Board for several terms. He comes to us from consulting. He has helped out MIHS in many

different ways, from Best Paper Award Review, to contributing articles to the MIHS newsletter, to working shifts at the MIHS Booth at the MSC. The best way to describe Andy, is that he is like an Industrial Hygiene superhero. Any time a person on the Board needs help, he is the first one to pitch in and help. It doesn't matter how large or small the task is. From helping at the registration table, to assisting people in carrying bulky items to their cars, to volunteering to chair the Newsletter Committee! He is an all around great guy and delightful to work with!

**Matt Macomber, CIH** Matt is relatively new to the MIHS Board, although he had served on the Board in the past. He comes to us from industry and government. He has a lot of enthusiasm and passion for industrial hygiene, which makes him perfect for our Student Outreach Committee. If you know of any career fairs at your local schools, please don't hesitate to contact Matt, so that MIHS has an opportunity to reach out to the younger crowd. His zeal for industrial hygiene is motivational and contagious!

**Rich McLonis, CIH** Rich has been a long time member of MIHS, and has served on the Board for several terms. He comes to us from insurance. He has helped out MIHS in many different ways, from Best Paper Award Review, to contributing articles to the MIHS newsletter, to working shifts at the MIHS Booth at the MSC. Many times he volunteered his place of employment to host MIHS/AIHA TeleWebs. He also has also served as the MIHS AV-guy, bringing his laptop and projection unit to meetings and ensuring that all runs smoothly for our event speakers. He has helped out at career fairs, and draws quite a crowd with his magnetic personality. (Did you see his picture in AIHA's The Synergist? Look on page 23 of the April 2010 issue.) Rich is a fantastic person who always steps up to help, despite his extensive out-of-town travel for his work. Rich is a terrific guy to work with, and has a wonderful sense of humor, and gets along with everyone.

**Sharkey Mingela, CIH** Sharkey has been a long time member of MIHS, has served as President two times, and has been on the Board for several terms. He comes to us from industry and academia. He is a very active member of the Board. He has helped out MIHS in just about every way possible, from Best Paper Award Review, to contributing articles to the MIHS newsletter, to working shifts at the MIHS Booth at the MSC, to updating the bylaws, brainstorming ideas for the Mini-Conference and other PDCs, and obtaining candidates for elections. He is the founder of MIHS Student Night, and continues to coordinate that event. He is the founder of the MIHS Merit Scholarship through the AIHF Endowment. He is an AIHA Fellow, and has been awarded the MIHS Golden Impinger Award, which is the highest award of distinction

continued...

...President's Message continued

and honor for MIHS. He provides a historical perspective to the Board, and has many years of Industrial Hygiene experience. He has served as the proxy for MIHS at the AIHce Local Sections Council meetings. We are all very lucky to have him on the Board! He has a tremendous passion for industrial hygiene, has brilliant ideas, and is great to work with!

**Kristin Osterkamp, CIH** Kristin is new to the MIHS Board, although for the past several years she has been serving on the AIHA Career and Employment Services Committee. She comes to us from industry and government. She was the first person from MIHS to be selected to attend the AIHA Future Leaders Institute in 2005. She is very bright, and without flinching, she took on the task of being Chair of the MIHS Website Committee! She is very forward-thinking, and technologically savvy, so she is a perfect fit for this position. To top this all off, she has a delightful personality!

**Graham Parr, CIH** Graham is a relatively newer member of MIHS, and has served on the Board for several terms. He comes to us from industry. He has helped out MIHS in many different ways, from Best Paper Award Review, to contributing articles to the MIHS newsletter, to working shifts at the MIHS Booth at the MSC. For the past few years, he has worked on the MIHS Elections and Teller's Committee, along with Carrie Brown and Jim D'Arcy, who have all taken it to the next level. He has set up the voting website for elections, gathered candidate bios and photos, tracked the progress of the election, and reported the results. He is very dedicated, focused, and is determined to do a great job. He has a great sense of humor, and is enjoyable to work with!

**Lynn Totsky** Lynn is new to the MIHS Board. She comes to us from government. She came to us with high recommendations, and after working with her a few short times, it is easy to see why. She is very organized, dedicated, and bright. She is contemplative, and considers all aspects before making decisions. She is very good-natured. She is filling-in the one remaining year of Peggy Brady's 2-year Board term, since Peggy moved into the President-Elect position. We are lucky to have Lynn on our team, and hope that she stays with us for more years to come!

That completes our Board, but I would be remiss if I didn't give a few honorable mentions.

**Cindy Ostrowski, CIH** She has been a long time member of MIHS, has served as President, as well as many positions on the Board, and is the current AIHA

Secretary. She has an incredible amount of energy, enthusiasm and passion for Industrial Hygiene. Although she is serving in a national capacity now, she always keeps her eye out for MIHS. She has attended our local Board Meetings, and keeps us up to date on happenings at the national level. She is wonderful to work with, and we really value her support, experience and input!

**Pier-George Zaroni, CIH** Pier-George has been a long time member of MIHS, has served on the Board for several terms, and has been heading up the Best Paper Award Committee for several years. Anyone who has lead the Best Paper Award Committee knows how much dedication that involves, and we cannot thank Pier-George enough for that! He is so easy to work with, very friendly and amiable. We are very lucky to have him on our team! If you are interested in reviewing any JOEH articles for the Best Paper Award process, please contact Pier-George. We are always in need of first stage, second stage, and final reviewers.

Thank you to everyone on the Board! We have a great collection of people who all cooperate and work well together as we move toward the same goal. We are dedicated to serving the MIHS membership in the best way possible. If there are any industrial hygiene programs or topics in which you have a particular interest, please contact me, so that I can bring them to the Board at our next meeting.

Please mark you calendars for upcoming MIHS events. The Mini-Conference is scheduled for October 19, 2010 at the MSU Management Education Center in Troy. Watch for further details in the newsletter and website.

Looking forward to serving you over the next year!

Sincerely,

Laura Randall, CIH  
MIHS President

## Mark Your Calendars

### **Comprehensive Industrial Hygiene Review Course**

Co-sponsored by U of M, MIHS and AIHA  
September 20, 2010 - September 24, 2010  
Ann Arbor, Michigan

**World Leader in Sampling Technologies**

## 2010 Golden Impinger Award

by Laura B. Randall, M.S., CIH - MIHS President

The recipient of the 2010 Golden Impinger Award is Sarunas Mingela, PhD, CIH. Dr. Mingela received the Golden Impinger Award at the Annual MIHS Business Meeting and President's Breakfast held at Meadow Brook Hall in Rochester,

Michigan on March 22, 2010.

Dr. Mingela is a long time contributor and member of MIHS and AIHA. He retired from Ford Motor several years ago and is currently serving as an associate professor at Wayne State University. Here are a few highlights of his extensive contributions:

**Service** He has twice served the position of President of MIHS from 2006-2007, and 1984-1985. He has served as Board Member for several two-year terms. He has actively participated in the MIHS committees, including Best Paper Award reviews, contributed many articles to the MIHS newsletter, updating the bylaws, coordinating MIHS Student Night, brainstorming ideas for the Mini-Conference and other PDCs, obtaining candidates for elections, and many more items listed below.

**Leadership** Dr. Mingela showed well-developed leadership skills during the MIHS Board Meetings and during his MIHS Presidency. He had a clear vision for what he wanted to accomplish and enlisted the entire Board on various tasks to make that happen. He also spent a large amount of his own time and effort in accomplishing tasks, leading by example. (Please see further discussion below on MIHS Best Student Award, AIHF Endowment, Golden Impinger award, and Special Service Award, all initiated by Dr. Mingela.)

**Recognition By Peers** Dr. Mingela is recognized by his peers, by being awarded the American Industrial Hygiene Association (AIHA) Fellow status. Only five percent of the AIHA membership can qualify for the Fellow Award, which is given to those individuals who have made significant contributions to the field of

industrial hygiene. His accomplishments have been recognized by his peers as outstanding contributions to the AIHA and to the profession.

### He Has A True Appreciation for the Field of Industrial Hygiene

He has a true appreciation for the field of Industrial Hygiene, from its rich history to the present day. He has written many articles on this in the past MIHS newsletters, for example, the Fall 2006 President's Message and Summer 2009 "Is it MIHS or MISH?". These are posted on the MIHS website.

(Link: <http://www.mihswb.org/Newsletter.php>)

**Recognition** He developed a special tradition of recognition to extraordinary Industrial Hygienists through the Golden Impinger Award. Prior recipients included: Don Hart PhD in 2008; and Bill Cleary, Leonard Jensen PhD, Edward Kerfoot PhD, Gene X. Korsha, and Gerald Sattelmeier in 2007. He established a Special Service Award for people who have made outstanding contributions or who have provided special service to the field of Industrial Hygiene. (Please see page 3 of the Fall 2006 MIHS newsletter, link: <http://mihswb.org/media/fall2006.pdf>)

### Support of Younger/Future Industrial Hygienists

He established the MIHS Best Student Award in 1984, when he first served at MIHS President. (Link: [http://www.mihswb.org/Best\\_Student\\_Award.php](http://www.mihswb.org/Best_Student_Award.php)) For several years, he has been contributing his own, personal money to the MIHS Matching Grants to Universities program. (Link:

[http://www.mihswb.org/Matching\\_Grants.php](http://www.mihswb.org/Matching_Grants.php)).

He encouraged, and supported the attendance of Carrie Brown, and me, to the AIHA Future Leaders Institute in the Fall of 2006. (Please see page 7 of the Fall 2006 MIHS newsletter, link: <http://mihswb.org/media/fall2006.pdf>) Also, he worked very hard to establish the Michigan Industrial Hygiene Society Merit Scholarship through the AIHF Endowment.

(Please see pages 10 & 11 of the MIHS Winter 2006 newsletter, link: <http://mihswb.org/media/winter2006.pdf>)

**Organization** Dr. Mingela is very organized. When serving as President during MIHS Board Meetings he had a specific agenda to cover, and very little time was wasted during the meetings. The tempo of the meetings was quick, and it was a productive use of time. A lot was accomplished during that time period. During the MIHS-hosted events for the membership, everything ran smoothly, especially during events where there were multiple speakers, for example, at the MIHS Mini-Conference, and the MIHS Student Night.

**Work Experience** Dr. Mingela has over 30 years of IH work experience at Ford Motor Company.

It is easy to see why he was selected by the MIHS Board as the 2010 recipient of the Golden Impinger Award.

Congratulations to Sharkey Mingela from all of the MIHS membership!

### Golden Impinger Award Criteria

The criteria for consideration for a Golden Impinger are rigorous. For example the candidate must have:

- worked full time as an industrial hygienist for 20 or more years;
- made consistent and significant contribution as an industrial hygiene leader, teacher, researcher, mentor, or innovator;
- contributed to improving and increasing the visibility of industrial hygiene in Michigan and elsewhere;
- demonstrated leadership and cooperation in the professional and non-professional communities;
- been recognized and respected by his/her peers and related professional organizations; and
- not previously received an MIHS Golden Impinger.

## AIHA Fellow Announcement

MIHS extends its congratulations to two of our own who have distinguished themselves. Daniel C. Maser, CSP, CIH, ROH, and Robert Lieckfield, Jr., CIH, have been awarded AIHA Fellow Status for 2010. Dan is a long time MIHS members and Past-President of MIHS. Bob is also a long-time MIHS member and has served as an MIHS officer. Fellow status is limited to no more than 5 percent of the AIHA membership and is awarded to those individuals that have contributed significantly to the field of industrial hygiene.

Congratulations Bob and Dan.

### The MIHS Website: An Excellent IH Resource

[www.MIHSweb.org](http://www.MIHSweb.org)

As an MIHS member, our Web site is at your disposal 24/7 with news, views and more. Features include Job Postings and Links to IH related Event and Activities.

## Great Courses, Great Instructors, and a Great Way to Earn CM Points

By: Peggy Brady

MIHS plans several learning opportunities throughout the year. AIHA TeleWebs are sponsored, PDCs are planned, and the annual Mini-Conference is held every October. Many members take

advantage of these opportunities to not only keep well informed, but earn CM points. This Spring, two PDCs were conducted.

*Emerging Issues in Air Sampling  
Aaron Jacob begins with introductions*

On March 22nd, in connection with the annual Past-President's Breakfast, Ms. Debbie Dieritch from SKC, conducted an info packed, half-day PDC. The topic was Emerging Issues in Air Sampling and three main topics were covered. Debbie addressed 'Hot Topics in Air Quality' including school zone initiatives which covered new programs to monitor air contaminants around schools. She also addressed new medical applications for breath analysis. In her second topic, she addressed the role of health and safety professionals in Green Buildings. Her final topic was vapor intrusion from chemicals and gases and the multi-disciplinary approach needed to address problems. Not only did the attendees receive a lot of great information, the PDC also earned them 0.67 CM points.

*Dr. John Mulhausen teach a full house at the Radisson in Lansing*

The day before the Michigan Safety Conference, MIHS in conjunction with WMIHS, and University of Michigan - Center for Occupational Health and Safety Engineering sponsored the PDC deal of the decade. Advancements in Exposure Assessment - Improving Data Interpretation and Professional Judgment Using Bayesian Decision Analysis was presented by Dr. John Mulhausen. This course is offered at AIHce for \$375 and we were able to offer it for only \$75. An all day PDC sometimes raises concerns about content and if it might get a bit boring. WOW, not this one. Dr. Mulhausen did an incredible job. He reminded us all of the simple statistic rules we tend to forget. He compared and contrasted traditional statistics to Bayesian statistics and he introduced a program to assist us in making decisions with respect to sampling results. It was very clear to all attendees why this course has been rated in the top 10 PDC courses for several years at the AIHce.

New programs are continually being planned. Please see the Mark You Calendar section of this Newsletter and consult the web-site for additions.

## Tales from the Gulf

by Andy Crause, CIH

One of the reasons this Summer's MIHS Newsletter is so late is that I (your newsletter maker-upper) have spent a substantial portion of my Summer in and around Mobile, AL, working on the cleanup of the BP oil spill, which you may have read

about. There are something like 20,000 people engaged in this effort and my firm is assisting with safety and hygiene for this large work force. First of all, if I ever decide to move to the planet Mercury, I will be somewhat acclimated. Heat stress is clearly the biggest health and safety concern throughout the Gulf, whether on the beach or out in a boat, and most of the people doing the labor are just everyday people who may or may not be used to doing several hours of raking and shoveling per day in the oppressive heat, day in and day out.

For the most part, I have been in the Incident Command Center in Mobile (there is a larger "IC" in Houma, LA as well), which is populated by Coast Guard; Army; Navy; Air Force; NOAA; US Parks Service; OSHA; EPA; all the state wildlife and environmental agencies for AL, FL, and MS; consultants galore; and BP people from all over the world. I never served in the military, but those who have served that are involved in this adventure assure me that this bears a close resemblance to a military operation (minus guns and barking of orders). What truly amazes me (aside from the you-gotta-be-kidding-me heat) is that I can spot a jerk a mile a way, and of the hundreds of people I have met down there, I have yet to meet one. The cleanup effort is simply a very daunting task that is going to take a very long time and everyone is working as hard as they can without regard to what happened and whose fault it was.

I hope to put together some sort of presentation or PDC about the IH and safety concerns/efforts in the Gulf for next Winter or Spring. I am not at liberty to discuss any specifics at the moment, but OSHA has all sorts of information regarding sampling data, etc. at <http://www.osha.gov/oilspills/>. The official website of the Unified Command is at <http://www.deepwaterhorizonresponse.com>.

## Matching Grants to Universities

Please visit our website [www.MIHSweb.org](http://www.MIHSweb.org). Click on the Matching Grants side bar link to find out how you can contribute to the Matching Grants to Universities Program.

## Looking for new job opportunities?

Be sure to frequently check the job-posting page on the MIHS website.

## Thomas Peters and Six Co-Authors Receive MIHS Best Paper Award At the 2010 AIHce in Toronto

*Pier-George Zaroni,  
PE, CSP, CIH,  
MIHS Best Paper  
Award Chair*

Dr. Thomas Peters of the University of Iowa was on hand in Denver at the annual American Industrial Hygiene Conference & Expo to receive the MIHS 2009 Best Paper Award for the JOEH article entitled "Airborne Monitoring to Distinguish Engineered Nanomaterials from Incidental Particles for Environmental Health and Safety" A commemorative award plaque was given to Dr. Peters by Bill Cleary, CIH on behalf of MIHS at the AIHA Volunteer Reception Tuesday evening of the conference.

The MIHS Best Paper Award was established in 1957 to acknowledge significant contributions in occupational health research to the Industrial Hygiene profession. Published articles in the combined Journal of Occupational and Environmental Hygiene (JOEH) are evaluated by MIHS Best Paper Award committee members for nomination to receive the Best Paper Award. Certainly, this year's winning paper embodies the style, originality, and significance to the work of the IH profession which are the hallmark's of so many of the past MIHS best papers. Please join the members of the MIHS Best Paper committee in giving this years winners our congratulations and best wishes for success in their future research on this topic.

*(Pier-George Zaroni, PE, CSP, CIH, MIHS Best Paper Award Chair)*

## COMPREHENSIVE INDUSTRIAL HYGIENE REVIEW

The Comprehensive Industrial Hygiene Review is a 4.5-day course that provides an intensive, high-level review of a wide range of industrial hygiene topics.

This program is offered twice annually in Ann Arbor, Michigan and has gained the reputation of being one of the premier programs for people needing to broaden or refresh their industrial hygiene knowledge base or to focus their efforts on professional certification.

Attendees benefit from interaction with more than a dozen experts covering industrial hygiene topics. The next offering will be September 20-24, 2010.

This program is co-sponsored by the American Industrial Hygiene Association (AIHA), the Michigan Industrial Hygiene Society, and the University of Michigan. Registration is handled through the AIHA. Detailed information is available at the following AIHA website:

<http://www.aiha.org/Content/CE/road/CIHReview.htm>
